

CORPORATE OVERVIEW

Innovative Driven partners with law firms, corporations, and government agencies to provide unparalleled service, consultations, and software solutions across the information lifecycle.

We also provide legal staffing and specialized and creative permanent places because nothing helps your business perform better than having the best people in their perfect positions. Everything we do here at Innovative Driven is to increase the performance and success of your business – from the information created to the people that create it.

Law Firms

We want to help you build the best relationship possible with your clients by providing you with the tools to best serve and help them win.

Government

We work with government agencies because government data is all of our data, and we believe protecting it is our duty. We believe in protecting each other.

Corporations

Innovative Driven's experts are obsessed with data - it makes us tick. We love offering our expertise to corporations to help mitigate the cost, fear, and risk of data so you can focus on what makes YOU tick.

Talent Acquisition

We believe the right people working in the right roles facilitate growth, curates' happiness, and changes lives for both parties. We are passionate about finding the perfect match because we've seen the difference it makes.

OUR WHY

We believe an organization's data should help you achieve your goals, grow your business, and operate efficiently. We are in the business of making your data work for you, not against you.

OUR WHAT

We provide services, solutions, consultation, and peace of mind to organizations facing complex data challenges. We look at all information and at each project holistically to create personalized workflows that extract the most value out of your data.

OUR HOW

We have assembled a world-class team of lawyers, technologists, and data experts that use a combination of best-of-breed technology, industry best practices, "seen-it-all" experience, and seamless automation to manage data at every point of the information lifecycle.

INNOVATIVE DRIVEN'S SOLUTIONS
